Comments:

Dear Examiner Tamai:

Attached is an amendment for the above-referenced patent application. The Office Action Summary indicates that the Office Action mailed May 9, 2003 is final; however, the Detailed Action does not state that the action is final or that this application is closed on the merits. As we discussed on the telephone on May 20, 2003, it appears that the status of the application indicated on the Office Action Summary may be in error. I would greatly appreciate an early indication on the status of this application. Please do not hesitate to call me if you have any questions.

Sincerely,

  
Scott Hewett
